SRM PUBLIC SCHOOL • CLASS 10 BOARD REVISION-1

Day 5 Night Assessment: Science (Carbon & Compounds) + English (Madam Rides & Grammar)

Student: **Pranav Jothi (Grade X)** • Date: **2026-11-01** • Pages Evaluated: **5 Pages**

GRAND TOTAL SCORE
22 / 30
(73.3%)

🏆 1. MARKS SUMMARY (15 + 15 = 30 TOTAL MARKS)

ASSESSMENT SUBJECT DETAILS	TOTAL MARKS	ACHIEVED MARKS	PERCENTAGE	STATUS
Subject 1: Science (Ch 4: Carbon and its Compounds)	15	14.5 / 15	96.7%	☀️ Outstanding
Subject 2: English (Madam Rides the Bus & Grammar)	15	7.5 / 15	50.0%	⚠️ Grammar Focus
📊 **GRAND TOTAL (15 + 15 = 30 Marks)**	30 Marks	22.0 / 30 Marks	73.3%	🔒 Verified & Locked

💡 **Academic Evaluator Remarks:**

Solid performance by Pranav! Scored 22.0 out of 30 (73.3% First Class). Science is exceptional at 14.5 out of 15 (96.7%) with flawless chemical equations, micelle diagram, and catenation concepts. English literature is strong at 6.0 out of 8 (75%), remembering key details like 30 paise fare and the betel-nut chewer. Grammar scored 1.5 out of 7; with 15 minutes of practicing Subject-Verb Concord and Reported Speech rules, this will easily jump to 95%+!

1 SUBJECT 1: SCIENCE (CH 4: CARBON AND ITS COMPOUNDS)

14.5 / 15 Marks (96.7%)

✅ Fully Correct Answers (Left Column) — 3 Items

- ✓ Q1 [4.5/5.0 Marks]: Covalent Bonding, Catenation & Tetravalency — Accurately explained carbon's valency 4, impossibility of gaining/losing 4 e^- due to high energy and small atomic size, sharing electrons, self-linking into chains/rings (catenation), and bonding with H, N, O, Cl (tetravalency).
- ✓ Q2 [5.0/5.0 Marks]: Soap Cleansing Action & Micelle Diagram — Clean distinction of hydrophobic hydrocarbon tail (in grease) and hydrophilic ionic head (in water). Very neat, labeled circular micelle diagram with suspended dirt.
- ✓ Q3 [5.0/5.0 Marks]: Three Chemical Reactions — 100% correct Esterification with conc. H_2SO_4, Saponification with NaOH producing soap and ethanol, and Alkaline $KMnO_4$ / Acidified $K_2Cr_2O_7$ oxidation producing ethanoic acid.

❌ Wrong / Mistakes (Right Column) — 0 Items

None (0 Questions Wrong / Skipped in this Subject!)

🪄 ⚠️ Partially Correct & How to Write for Full Marks (Step-by-Step Guide) — 1 Questions

Q1 [4.5 / 5.0 Marks — 0.5 Mark Deducted]

Why does carbon form compounds mainly by covalent bonding? Explain Catenation and Tetravalency.

🚩 WHAT PRANAV WROTE / WHY MARKS DEDUCTED:

Explained 4 valency, small size, high energy for losing/gaining. Missed mentioning that C^{4-} nucleus with 6 protons cannot hold 10 electrons, and C^{4+} requires huge energy to remove 4 electrons leaving 6 protons holding 2 electrons.

✅ HOW TO ANSWER BETTER (CBSE MODEL ANSWER):

1. If it gains 4 e^- (C^{4-}): Nucleus with 6 protons cannot hold 10 electrons.
2. If it loses 4 e^- (C^{4+}): Requires large energy to remove 4 electrons leaving 6 protons holding only 2 electrons.
3. Therefore, it shares electrons to form covalent bonds.

2 SUBJECT 2: ENGLISH (MADAM RIDES THE BUS & GRAMMAR)

7.5 / 15 Marks (50%)

✅ Fully Correct Answers (Left Column) — 3 Items

- ✓ Q4 [3.0/4.0 Marks]: Valli's Bus Journey Plan — Accurately identified 30 paise one-way fare, 45-minute travel time, and neighboring town destination.
- ✓ Q5 [3.0/4.0 Marks]: Elderly Woman Comparison — Captured vivid NCERT details: chewing betel nut, ugly large earlobe holes, and offensive intrusive questioning.
- ✓ Q6 (iii) [1.0/1.0 Mark]: Tenses / Conditionals — Accurately completed conditional clause: 'we will cancel'.

❌ Wrong / Mistakes (Right Column) — 3 Items

- ✗ **1.** Q6 (i) Neither of the two boys... Wrote 'were' instead of singular 'was'.
- ✗ **2.** Q6 (ii) Bread and butter... Wrote 'are' instead of singular unit 'is'.
- ✗ **3.** Q6 (iv) Error Correction... Inverted rule by changing verb instead of noun ('students' → 'student').

🪄 ⚠️ Partially Correct & How to Write for Full Marks (Step-by-Step Guide) — 3 Questions

Q6 (i) & (ii) [0 / 2 Marks]

Subject-Verb Concord Rules: 'Neither of the two boys...' and 'Bread and butter...'

🚩 WHAT PRANAV WROTE / WHY MARKS DEDUCTED:
Wrote plural verbs 'were' and 'are'.

✅ HOW TO ANSWER BETTER (CBSE MODEL ANSWER):
1. 'Neither of' always takes a singular verb → 'was'.
2. 'Bread and butter' as a combined dish takes a singular verb → 'is'.

Q6 (iv) [0 / 2 Marks]

Error Correction: 'Every students in our school participates in sports.'

🚩 WHAT PRANAV WROTE / WHY MARKS DEDUCTED:
Error: participates | Correction: participate

✅ HOW TO ANSWER BETTER (CBSE MODEL ANSWER):
Error: students | Correction: student ('Every' is always followed by a singular countable noun).

Q6 (v) [0.5 / 2.0 Marks — 1.5 Marks Deducted]

Reported Speech: Teacher said to Pranav, 'Did you complete the homework today?'

🚩 WHAT PRANAV WROTE / WHY MARKS DEDUCTED:
Teacher asks pranav that did he has completed his homework today

✅ HOW TO ANSWER BETTER (CBSE MODEL ANSWER):
Teacher asked Pranav if he had completed his homework that day.

📊 4. OVERALL & SUBJECT-WISE CURRENT PERFORMANCE STATUS (100% SCALE)

Visual distance to 100% centum target across all 6 subjects

4 / 6 Subjects Evaluated

🎯 OVERALL CURRENT PERFORMANCE STATUS (ALL 6 SUBJECTS)

Rule: Overall % is calculated only when all 6 subjects are evaluated

No Data (4/6 Subjects Evaluated)

No Data — Awaiting Remaining 2 Subjects (Social Science, Tamil, AI)

📈 SUBJECT-WISE CURRENT RANGE (OUT OF 100%):

🧪 Science — **94.4% / 100%**
